

****PUBLIC NOTICE****

Due to the excessive snow storms we have experienced this season, the stockpile of sand has become extremely limited. In light of this, and keeping in mind that we must maintain the roads first and foremost, the Highway Department is currently unable to provide sand to residents for their driveways.

As of this 28th day of February, 2008, sand will no longer be available to the general public, until further notice.

We apologize for any inconvenience or hardship this may have on some of our residents, but do hope that all understand that the Town's roads are our first priority.
